

Brundall Parish Council Land Management reports to be considered

Name of organisation/group: Cremer's Meadow. January 2024

Highlights for sharing

The 2023 Maintenance Plan has been reviewed and a new one written for this year. It includes the intention of developing 5-year development plans for:

- The Whole Site
- The Pond
- The Meadow
- The Woodland

Small working groups will provide the initial work and we anticipate the BWG will assist at that stage. The Pond group is already working and considering initial actions.

The Maintenance plan will be submitted to Land Management after its adoption at the next Friends planning meeting.

Recommendations from the BWG have been incorporated into the plan.

One tree came down in the gales. It fell onto the Meadow so did not present a hazard to the public. This has now been cleared by the Friends.

We have Aviva volunteers coming for a day in March.

Issues you wish Land Management to discuss

Purchasing additional tools from the Insurance money

Ongoing difficulty with access to one notice board. Inspection by Stebbings will be necessary when they are next in the village.
