

Brundall Parish Council Land Management reports to be considered

Name of organisation/group: Cremer's Meadow. November 2025

Highlights for sharing

A skip has been hired for mid November to move unwanted items from the barn. It is also hoped that potential hazardous waste can be taken to a recycling centre during an amnesty

The barn door opening and closing system has been improved.

The Information Hut has had significant work undertaken and it is hoped that it will be ready for re-opening by Christmas.

The quay is showing its age and some work needs to be undertaken to maintain it. The Friends are investigating how best to achieve this and it may require funding. They are currently making sure it is safe in the meantime..
If necessary, this will be brought to a future LM meeting.

The blocked culvert remains a problem and we are grateful for the help and advice from Tim.

The annual maintenance plan will be reviewed and written for 2026 in January. The 5 year plan is making it's slow way towards completion for 2026.
