

Brundall Parish Council Land Management reports to be considered

Name of organisation/group: Brundall Community Leisure Ltd.

Date: 1st February 2026

Highlights for sharing

- Awaiting feedback from Maintenance Operative before purchasing new shed to go in Bin Store area.
- Parking on and in the vicinity of the site remains an issue:
 - o CSF unable to enforce parking on site based on team size on site.
 - o Installation of bollards (approved by Full Council) pending a meeting with Highways to agree on exact location for installation.
 - o Proposing a meeting with Planning Dept of Broadland DC to review options for additional parking on site; any additional parking will be subject to funding and costs expected to be in excess of £30k.
 - o Review of options for a pedestrian gate to Berryfields/Church Mead underway but pending opening of David Capp Road to understand impact of that as a pedestrian/cycle route.
- Reviewing installation of dugouts; questions over design to ensure it doesn't impact floodlight maintenance.
